

# **NDIS Webinar- Self-Management**

**2 August 2018**

## **What's it all about?**

The self-management webinar will deliver information and insights about what self-management is, how to self-manage your NDIS funds and your responsibilities as a self-manager.

See how managing your own funds gives you choice and control over what and who supports you.

Find out what's involved in managing your own plan and whether self-management is right for you.

## **Who should join in?**

The webinar is an interactive forum for participants, families and carers who want to learn more about what's involved in self-managing NDIS funds.

## **How do you join in?**

You can join the conversation from wherever you are by watching along on the webinar website and asking your questions via live chat. It's free to watch, includes Auslan interpretation and live captions, and if you can't join on the day the content will be posted to the NDIS website following the event.

Once registered we will provide detailed information about the event closer to the day.

**Date & Time** **Thursday 2 August 11am – 12pm AEST**

**Location-** Online event

## **RSVP-**

Please register for the webinar here (external) or visit- <https://www.ndis.gov.au/news/events/all>
